MODEL 30D
Continuous Hinge Door

The Model 30D continuous hinge door brings clean lines and contemporary styling to showers up to 36″ in width. The ¼″ tempered glass features polished edges and a thru-the-glass pull handle for clean styling. This semi-frameless door opens effortlessly on a unique continuous hinge design and closes securely with a magnetic closure. A clear acrylic drip across the bottom of the door and a clear vinyl seal in the strike jamb keep the Model 39D water-tight. Suitable for fiberglass installation.

Polished Silver | Brushed Nickel | Oil-Rubbed Bronze | Matte Black
