35D Sliding Enclosure for Showers

The 35D semi-frameless shower slider combines contemporary design and practicality, featuring a stylish "Euro" round header and tubular towel bars integrated through the glass. It includes two frameless tempered glass panels supported by sealed heavy-duty ball bearing rollers, ensuring smooth and effortless operation. With numerous design options and the ability for custom fabrication, the 35D is designed to cater to individual preferences by offering both style and functionality. Available in widths up to 60" and standard heights up to 78". Suitable for fiberglass installation.

Polished Silver Brushed Nickel Oil-Rubbed Bronze Matte Black
